2(b). Which are the TARIC commodity codes that correspond to the categories of cultural goods that require an import licence or an importer statement?

A: The ICG system users (importers) who draw up import licence applications, importer statements or general descriptions have to fill in the 'I.14 TARIC code' field with the relevant 10-digit commodity code that corresponds to the cultural good to be imported. The commodity code should be the same as the one indicated in the customs declaration for the cultural good in question.

In order to facilitate the task for persons unfamiliar with customs classification of goods, you will find below a correspondence table of the categories of cultural goods listed in Part B and C of the Annex to Regulation (EU) 2019/880 and the matching TARIC commodity codes.
